

## ENVIRONMENTAL POLICY STATEMENT

At Smith Building Services Ltd, we are committed to leading by example in the protection of the environment. Our operations adhere to the highest standards of environmental responsibility as outlined in ISO 14001. We continuously seek to improve our environmental performance through initiatives that are beneficial both to our stakeholders and the planet.

### Our Commitments:

1. **Compliance:** We comply with all applicable legal requirements and relevant industry standards regarding environmental practices.
2. **Pollution Prevention:** We are dedicated to preventing pollution through proactive measures and the responsible management of hazardous materials.
3. **Resource Efficiency:** We aim to use resources more efficiently, reducing waste, energy consumption, and emissions. This includes promoting recycling and the sustainable use of natural resources.
4. **Continuous Improvement:** We strive for continuous improvement in our environmental management system and environmental performance. Regular reviews and assessments of our policies, objectives, and targets ensure we are always improving.
5. **Employee Engagement:** We foster environmental awareness and encourage the active participation of all employees in environmental initiatives. Training and communication are key components of our engagement strategy.
6. **Stakeholder Involvement:** We engage with stakeholders, including clients, suppliers, and the local community, to promote shared responsibility for environmental protection.
7. **Sustainable Development:** We support and contribute to sustainable development by integrating environmental considerations into our business planning, decision-making, and operational practices.

We understand that safeguarding the environment is vital for the well-being of current and future generations. This policy is endorsed by our senior management team and is communicated to all employees, contractors, and stakeholders. It is also available to the public upon request.
